SCHIEDAM DRY GIN

## BOBBY'S SCHIEDAM DRY GIN

In 1950, Jacobus Alfons, also called Bobby, immigrated to Holland from Indonesia. Bobby loved gin, but he missed the taste of home so he started infusing his jenever with familiar Indonesian spices and herbs, without knowing that this would be the foundation of this Bobby's Schiedam Dry Gin.

Bobby's Gin is made from eight botanicals all separately distilled. No additives, sugars or extraction are added. This gin is simply pure taste. On the nose it is spicy fragrant. You feel a fresh burst of citrus and herbals at first sip and with a slight hum of pepper.
