

INVERROCHE GIN VERDANT

Surrounded by vineyards, olive groves and fynbos, The Inverroche distillery is nestled in the midst of South African beauty. Here they create some of the worlds finest gins. Old limestone buildings are home to the Inverroche Distillery and its range of iconic spirits. To form the name of the distillery, French and Celtic words were combined to define the extraordinary interaction which takes place between the water and limestone of the region.

Tasting notes:

A delicate, floral gin which blends African and traditional botanicals to create a refreshing, aromatic spirit. It is satin soft and fragrant on the palate with hints of spice, subtle juniper, sweet citrus, rose and liquorice top notes. When you try it, you will feel a brief infusion of late summer blooms which adds an alluring aroma and imparts a delicate green hue to the spirit.
