## WEMYSS MALTS, PEAT CHIMNEY

Wemyss Malts is a boutique independent bottler based in Scotland. Wemyss is pronounced Weems and is the Scots word for caves. Peat Chimney is selected and blended from 10 single malt scotch whiskies and matured in once than once filled barrels. A refill barrel is perfect for showing off the briny and smoky character of an Islay malt without overwhelming it with wood influence. Islay is a Scottish island in the Inner Hebrides renowned for its production of bold, uncompromising malt whisky. To make this Peat Chimney, Wemyss Malts’ blenders have selected malts from particular distilleries that use heavily peated malted barley.
