## WEMYSS MALTS, THE HIVE

Wemyss Malts is a boutique independent bottler based in Scotland. Wemyss is pronounced Weems and is the Scots word for caves. The Hive is selected and blended from 10 single malt scotch whiskies. It is Speyside malt whisky for light, delicate and fruity character, selected by Wemyss Malts’ blenders as the signature malt. They have used non-peated malt whisky for its base. Maturing the fruity floral spirit with a range of ex-bourbon barrels that impart sugars into the spirit develops the aromas and flavours into the honeyed character. Also delicate estery fruit flavours and floral notes are achieved by long fermentation of work and distillation of spirit with lots of copper contact.
