

CANE ISLAND™

CARIBBEAN AGED RUM

CANE ISLAND BARBADOS RUM, SINGLE ORIGIN BLEND

Rum is being produced in Barbados for over 350 years. During these centuries, rum has become a fundamental part of the identity of the island. Barbados is a part of the British rum world. British rums can be described as dark, flavourful, full bodied and typically distilled from molasses. This Barbados rum is a blend of Pot- and Column still rums, matured in casks up to 8 years in the tropical climate of Barbados. In Barbados, the ageing process is three times more intense than in colder climates like Scotland or North America. The warm climate intensifies the interaction between the rum and the wood.

Tasting notes:

This Barbados rum has a rich and woody taste with hints of tobacco. It is a rum with a body but still not too heavy with a warm palate and pleasant notes of vanilla and deep oak, followed by a very gentle finish.

Country: Barbados

Distillery: Foursquare & West Indies

Alcohol: 40% alc.

Age: 3-8 years
