

INVERROCHE GIN AMBER

Surrounded by vineyards, olive groves and fynbos, The Inverroche distillery is nestled in the midst of South African beauty. Here they create some of the worlds finest gins. Old limestone buildings are home to the Inverroche Distillery and its range of iconic spirits. To form the name of the distillery, French and Celtic words were combined to define the extraordinary interaction which takes place between the water and limestone of the region.

Tasting notes:

Gin Amber is a distinctive, aromatic gin resulting from a harmonious fusion of flora from Africa, with spices and berries from India and Europe. After distillation the spirit is mellowed with tannin rich coastal botanicals, transforming it into a subtly amber hued, full-bodied gin. It is smooth on the palate with a hint of wood, honey and spice.

Country: South Africa

Distillery: Inverroche Distillery

Alcohol: 43% alc.

Age: Unaged
