

INVERROCHE GIN CLASSIC

Surrounded by vineyards, olive groves and fynbos, The Inverroche distillery is nestled in the midst of South African beauty. Here they create some of the worlds finest gins. Old limestone buildings are home to the Inverroche Distillery and its range of iconic spirits. To form the name of the distillery, French and Celtic words were combined to define the extraordinary interaction which takes place between the water and limestone of the region.

Tasting notes:

This Gin Classic is double distilled and has a traditional flavour profile. It is an elegant, crisp and complex gin created from a flavorful blend of African and traditional botanicals. The subtle perfumed undertones of the Cape Fynbos floral produce a lingering organic feel and a soft floral finish and amplify the aromas of the classic botanicals and enhance complexity.

Country: South Africa
