

WILD TIGER RUM

Wild Tiger Rum is India's very first premium rum, distilled in columns and then aged in American Oakwood casks, which once stored Bourbon Whisky. Only 2200 Tigers remain in the Indian forrest. This figure is down from 10.000 Tigers a century ago. Therefore the brand donates 10% of profits towards Tiger Conservation via Wild Tiger Foundation. Every single bottle is unique. The velvet fabric sleeve is made by local Indian women to give them an opportunity to achieve independence.

Nose: Intense with hints of vanilla, toasted wood, cacao and butterscotch.

Palate: Prominent undertones of molasses, toffee, vanilla, almond and honey.

Country: India

Distillery: NA, Sdf Industries Ltd

Alcohol: 40% alc.

Age: 2-4 years
