

VAPOR DISTILLERY BOULDER BOURBON

Boulder Bourbon Whisky is bottled by hand in Boulder, Colorado at Vapor Distillery. Vapor Distillery is a craft distillery because each and every small, handcrafted batch of award winning spirits produced in their Boulder Colorado distillery is made by hand. At Vapor Distillery they barrel and age their spirits to perfection in new American white oak barrels.

Tasting notes:

This Boulder Bourbon Whisky is a blend of the three grains Corn, Rye and Malted barley (51% Corn, 44% Rye and 5% Malted barley). It is distilled at Vapor's Copper Pot Still, and aged in 15 gallon Virgin American Oak barrels for 18 months. Because the barrels are so small, the vanilla, caramel and wood flavours are extracted much quickly compared to the conventional 53 gallon barrel. It is a unique combination of grains aged smaller barrels.

Country: United States of America

Distillery: Vapor Distillery

Alcohol: 42% alc.

Age: 18 months
