## COBALTE VODKA

Reims is world renowned for the production of Champagne but also has a super premium vodka distilled 5 times from the same grapes as Champagne. In the autumn, the specific champagne grapes, Chardonnay, Pinot Noir and Pinot Meunier are harvested by hand before being pressed. The raisin juice is then fermented and distilled five times in a small traditional copper still in order to retain all of the subtle flavours from the grapes. The strength is reduced using only spring water from the area.
