

WORTHY PARK, SINGLE ESTATE RESERVE

Established in 1670, the Worthy Park Estate is a true Single Estate product. Thousands of acres of sugar cane are the source for the molasses used during distillation in Worthy Park's 100% copper pot-still. An authentic, traditional Jamaican rum aged in once-used American White Oak, ex-bourbon barrels between 6-10 years; this Pure Single Rum showcases the unique complexity and distinctive taste of Worthy Park rums.

Country: Jamaica

Distillery: Worthy Park Estate
