

ILLUSIONIST DRY GIN

Illusionist Dry Gin is distilled in a handmade copper still with laboratory glassware. A secret flower from Far East is added during the distillation process which gives the gin its blue color. The botanicals and the basic spirit are of high quality and the gin is unfiltered to keep the full range of aromas. Illusionist Dry Gin is well-balanced and multidimensional with lingering aromas.

Tasting notes:

Illusionist Dry Gin is made of 16 botanicals and persuades with warm fragrances of juniper, mace and licorice. Floral hints of lavender and rosemary complete the flavor profile together with a fruity finish of lemons and oranges.

Country: Germany

Distillery: The Illusionist Distillery

Alcohol: 45% alc.

Age: Unaged
