

## PULLIMUT Ed. 2020

---

Pullimut [puli'mud] is an infinity blend with surprising characteristics. As a rum importer and indie bottler you end up with a lot of rum, sometimes more than you can handle. Which is why we use a 600 litre sherry butt barrel for being experimental and create our very own infinite blend. Only half of the barrel content is bottled, the rest remains in the cask and gets continuously blended with new rum, making it a never ending story.

**Nose:** Deliciously sweet with notes of candy floss, caramel fudge and chocolate coated mocca beans.

**Palate:** Mellow and sweet profile with nutty aromas and a creamy texture reminding of walnut ice cream. Round and mild finish with almost no bitterness.

**Outturn:** 300 bottles.

---

**Country:** Blend

**Distillery:** Blend

---

**Alcohol:** 47,6% abv.

**Age:** Blend
