

## KIMERUD COLLECTOR'S GIN

This gin owes its subtle dry palate to the handpicked raspberries from Kimerud farm. Between the months of July to August Master distiller Ståle Johnsen his wife Barbara, and their two daughters collect the rich, ripe berries. The color in this Pink Gin is 100% natural from the raspberry. Distilled in the same way as an "London Dry Gin".

### Tasting Notes

Balanced spices with a delicious taste of natural Raspberries and long nice after taste with some citrus and a touch of sweetness.
