

KIMERUD WILD GRADE GIN

Kimerud Wild Grade gin 47% is the most powerfull and dry gin in Kimerud family, here you can feel the touch of more wild botanicals that grows in the north (artic zone) of Norway. The gin is perfect for use in cocktails like Dry Martini, Negroni and other gin-based drinks. But also very nice if you want a Gin Tonic with more flavor.

Tasting Notes

A boost of flavors with balanced spicey notes, hints of dry soil and sea breeze. Long and pleasant finish with a touch of citrus.

Country: Norway
