

## PULLIMUT ED. 2021

---

Pullimut [puli'mud] is an infinity blend with surprising characteristics. As a rum importer and indie bottler, you end up with a lot of rum, sometimes more than you can handle. Which is why we use a 600 litre sherry butt barrel for being experimental and create our very own infinite blend. Only half of the barrel content is bottled, the rest remains in the cask and gets continuously blended with new rum, making it a never-ending story.

**Nose:** Notes of burnt sugar and caramel toffee. In the background a light scent of sherry and dark berries.

**Palate:** A sweet and balanced taste with clear notes from the sherry barrel and a soft and nutty finish.

**Outturn:** 300 bottles.

---

**Country:** Blend

**Distillery:** Blend

---

**Alcohol:** 44,3% abv.

**Age:** Blend
