

## PULLIMUT ED. 2024

Pullimut [puli'mud] is an infinity blend with surprising characteristics. As a rum importer and indie bottler, you end up with a lot of rum, sometimes more than you can handle. Which is why we use a 600 litre sherry butt barrel for being experimental and create our very own infinite blend. Only half of the barrel content is bottled, the rest remains in the cask and gets continuously blended with new rum, making it a never-ending story.

**Nose:** A refreshing and floral experience, accompanied by subtle hints of brown sugar and caramel.

**Palate:** Exhibiting spiciness and creaminess, culminating in a warm finish with notes of vanilla.

**Outturn:** 300 bottles.
